Project Description

Describe the primary purpose & intended water quality outcomes of your project:

Grant applications are ranked, in part, by the applicant's ability to successfully complete the proposed project. Briefly describe your training, experience, or other knowledge that is applicable to this project –OR– what training/resources you are currently using to gain knowledge:

List the site preparation and installation steps IN DETAIL (for raingardens, include an explanation of water conveyance methods, i.e. how will water enter or be routed to/through the raingarden?):

Please review the native plant requirements, then list the plant species that you plan to purchase and plant:

Outline the estimated timeframe/dates for prepping, installing, and completing your project:

Please attach a sketch (or map developed in LCW workshop) that shows the proposed layout, and approximate dimensions and distances from structures like house, downspout and street:

Budget

Please provide a breakdown of expected costs. Use the space below or attach a separate document.

Supplies (plants, seeds, landscape materials, etc.)		Equipment & Miscellaneous
